## Children's Social Care Benchmarking Sector-Led Improvement

## Annual Report (Public)

## WARNING - This spreadsheet uses macros please ensure you have enabled macros before attempting to use

Throughout this report 'South East' refers to the combined figures for South East LA's who have provided data.
This report uses publicly reported data and can be shared externally
This report is compiled from data collected from Local Authorities as part of the sector-led benchmarking exercise. If you have any queries regarding this report please contact Joe Cornford-Hutchings, Information Analyst, at CS.DataManagement@eastsussex.gov.uk or on 01273335931.

## (None)

You can now toggle LA's on and off on the charts by using the tick boxes on each page- this will only affect the section in which the tick boxes are located. Where heat mapping is used to colour the tables this is done for each LA's data (i.e. in rows) and higher values are represented by darker colour.
Where the IDACI score for the South East is shown, this will have been re-calculated to include only those LA's who have provided data for the indicator shown.

## IDACI (Income Deprivation Affecting Children Index)

Throughout this report, various indicators are plotted against the IDACI score of the Local Authority. The most recent IDACI figures were produced in 2015 using mid-2012 population estimates. The IDACI score represents the percentage of children aged $0-15$ living in income-deprived households.

LA Commentary:

[^0]:    SFR: This year Slough included all contacts the Trust received in the year irrespective of whether or not they led to a referral being opened. This has significantly increased their number of referrals.

[^1]:    SFR - West Sussex and Wokingham authorities were piloting flexible timescales for carrying out an ICPC during the reporting year.
